

## Business Objectives:-

### 1. Complete Business Performance Analysis:

**Objective:** Provide an executive-level view of revenue, gross margins, delivery timeliness, and quality benchmarks across all divisions, defense platforms, and global regions to monitor overall company health.

### 2. Global Supply Chain & Delivery Optimization:

**Objective:** Identify lead time bottlenecks, delivery status delays (On Time vs. Late/In Progress), and regional fulfillment risks to streamline defense hardware delivery and improve client retention.

### 3. Quality Control & Margin Risk Management

**Objective:** Analyze the relationship between Quality Control Scores, warranty lengths, production costs, and profit margins to reduce post-delivery warranty claims and eliminate high-cost production inefficiencies.
